Revision Tips

Find the Right Sound
Music can help some people but hinder others. Try music without words or even white noise or soundscapes. Avoid music that will distract you or make you want to sing along.

Use the Clock
Get started early, don’t make revision your whole day. Evidence shows shorter spells keep your concentration high. Plan regular breaks and don’t spend your whole day at a desk.

Move Around
It’s proven that exercise reduces tiredness and stress and increases productivity. Taking a break to move around is great for your brain and your body.

Fuel Your Body
Skip fatty foods and sugary snacks in favour of fruit and veg. They’ll give you the sustained energy you need. Keep hydrated with plenty of water too.

Reward Yourself
Find the right balance between study and leisure. Take a cinema trip with friends after a productive day of revision. Work hard but play a bit too.

Get Your Rest
A car doesn’t run on no petrol and you don’t run on no sleep. Give your body what it needs and get a good night’s rest, especially the night before exams.

“Smart” Drugs?
They make some people perform worse than they usually would and if you didn’t get them from a doctor the side effects aren’t looked at. Long term effects are relatively unknown. Avoid them.

Make a Plan
Make yourself a revision timetable. Make it fairly detailed, include any relevant notes or papers you need to look over. Block out time for socialising, exercising and any other breaks you may have.
